Stock and Semi-Custom Cabinet Line Manufactured by:

Coralite Woodworks now offering more options with our Stock Cabinets and Semi-Custom lines at an affordable price point. Choose between Custom, Semi-Custom and Stock cabinets, giving you the customer more options and value to choose from without sacrificing quality.

The stock and semi-custom cabinet lines have the options and look of custom cabinets and all made from the same quality raw materials.

We are able to provide stock sizes with the option of customizing sizes and styles for any room - Kitchens, bathroom vanities and linen cabinets, offices, playrooms or wherever you may need cabinets.

Choose between all wood or combination solid wood fronts with particle board cabinet structure.

Both stock and semi-custom cabinets can be available for install in 4-6 weeks from day of purchase.

## Features

Variety and expanded flexibility are at the heart of Coralite's stock Cabinet Systems. Available in several popular species, nearly every cabinet can be customized in size to the nearest 1/16". And with the right options and upgrades to complete today's style driven kitchen designs, the Cabinet Systems is a great option for custom look and quality without the custom cabinet price and a shorter turn around time.

## Advantage Series

Our most popular line of stock cabinetry features an all plywood case constructed with durable UV prefinished interiors. Shelving is made from 3/4" plywood and 5/8" solid wood dovetail drawer boxes add to the appeal, with a full complement of options for greater value and flexibility including 3/4" thick flush sides, matching specie interiors, size customization, finishing, Blum soft close drawer glides and hinges, and much more.

## Essence Series

Featuring particle board components with wood grain melamine impregnated paper, this value priced line offers standard features such as 3/4" thick shelving and plywood dovetailed drawer boxes. Customizable in width, height and depth, additional options include full extension soft close drawer glides, matching specie veneer end panels, extended stiles, flush toe kicks, finishing options and hardware upgrades.

## Variety in Cabinet Design

Maximizing your storage space has never been a more important feature in kitchen design, and the Cabinet Systems line has an extensive offering of wall, base and tall cabinetry as well as many accessories to provide ample storage for dishware, cutlery and pantry items. The cabinet line also includes cabinetry uniquely designed for a variety of appliances, bathrooms, offices and other rooms as well.

## Custom Doors

Traditional raised panel, Shaker style, recessed panel or applied moulding—, whether its one of the mainstays or a less conspicuous design, you can select from any of the hundreds of door and drawer front designs to complement your Cabinet Systems kitchen. From mortis & tenon to mitered or even a one-piece MDF door, Coralite can provide the styling, specie and finish you need for your next stock, semi-custom or custom kitchen.

## Drawer Boxes

Cabinet Systems offers a variety of drawer box specie and price point options. The standard Advantage Series drawer box is 5/8" dovetailed hardwood while the value driven Essence Series featuring 5/8" plywood dovetailed drawer boxes. Upgrades options include Hard and Soft Maple, or even fine furniture species such as Cherry, White Oak, Walnut or others. Blum full extension soft close glides can also be specified.

## Options

Optional enhancements add value and address the needs of todays consumers. Choices include multiple door overlays as

well as inset styling options that serve various tastes and style requirements. With any selection your doors and drawer fronts will be sized accurately with comprehensive finishing options to achieve classic looks, quality and consistency.

Storage solutions such as pull out trays, storage units, dishware drawer pegs and lazy susan rotating shelves provide organization and ease of access. For added value and flexibility, cabinets can be ordered in custom widths, heights and depths for specific installation requirements. Blum soft close drawer hardware and hinges provide true turnkey project solutions. Complete your kitchen design by combining Cabinet Systems with any of the comprehensive selections of door and drawer front designs and the possibilities are endless!
